

# 'Energy from waste'

17:30 16 September 2009, Bradford, UK

Join the East Pennines Members Group for a technical presentation by Gavin Colls CEng MICheE, Renewable Energy Director of Stopford Projects Ltd.

Gavin will cover the characterization of waste and the technologies available to process it - pyrolysis, gasification and incineration. He'll also summarise the advantages of technologies and challenges associated with them, the economic framework for waste to energy plant in the UK, and more.

**Date:** 17:30, 16 September 2009

**Venue:** Touchbase Meetings  
Bradford (South)  
Whitehall Road, Cleckheaton,  
West Yorkshire BD19 6HG
