

# Vision Statement

“To be the preferred supplier of process and project engineering to a select portfolio of clients.”

## **To gain maintainable advantage over the competition we must:**

- Instill a collective commitment to the Strategic Plan
- Foster distinctive competence among employees to deliver superior performance
- Gain maintainable advantage over competition
- Establish a culture that helps attract, keep, motivate, develop and reward leaders at all levels

## **Business Plan**

- Retention of existing customer base and development in blue chip chemical, pharmaceutical, energy, environmental, and biotechnology sectors
- Expansion of consultancy activities in process, safety, pressure relief, research and development, environmental and validation
- Develop strategic partnerships with both clients and co-suppliers
